- Person(s) or entit(ies) that control the majority of voting interests in your GPO;
- The types of equity holders of your GPO (e.g., publicly-held company, healthcare providers, individuals, for-profit and/or not-for-profit entities);

The equity holders of our GPO are for-profit and not-for-profit hospitals, health systems and other healthcare organizations. There are no private citizens that hold any direct equity in our GPO. Our GPO is not a publicly-held company but the parent organization of our GPO, Premier, Inc., is a publicly-held company. We do have equity holders in our GPO that are publicly-held companies. The corporate form of our GPO is a limited partnership. The parent organization of our GPO organization, Premier, Inc. is a corporation with its headquarters in Charlotte, NC. Our GPO is organized as a California limited partnership.

2. Describe the composition of your Board of Directors or other governing body and reflect any changes from the previous HGPII reporting year. Include the following in your response:

- Percentage of Board representing GPO customers;
- Percentage of Board that are employees of the GPO; and
- Percentage of Board members also serving as employees, officers, or directors of a participating vendor.

There are sixteen individuals serving on our Board. Ten of sixteen (63%) of the directors represent entities that participate in the GPO. There is no change from the previous HGPII

reporting year. None of the directors on the governing board are employees of the GPO. Only one member (0.06%) of Premier's Board of Directors is an employee of Premier Healthcare Solutions, Inc. One member (0.06%) of our Board also serves as a director of a Participating GPO Vendor.

3. Indicate whether any equity holder of your GPO and/or its parent or affiliated companies is a physician (or an immediate family member of a physician).

Not applicable.

CONFLICT OF INTEREST

4. Describe the GPO's policies and procedures that address conflicts of interest for:
- Employees in a position of influence with regard to contracting decisions;
 - Clinical Advisory Members; and
 - Members of the GPO's Board of Directors or other governing body.

As part of your response, provide details about reporting requirements for conflicts and provide a copy of written policies.

Premier's comprehensive policies and procedures ensure that all employees, Premier Board members and non-employee sourcing committee members adhere to strict conflict of interest disclosure, divestiture and/or recusal. Adopted in November 2002, these comprehensive conflict of interest policies address equity and non-equity potential conflicts. Premier's Group Purchasing Code of Conduct specifically addresses conflicts of interest involving (1) employees and their families, (2) Board members and their families, and (3) sourcing committee members and their families. No Premier employee can own stock equity in a participating vendor. A participating vendor is a vendor that has a contract or submits a formal bid or offer to contract to provide goods or services to members. Monthly, all employees receive a memorandum reminding them of the policy as well as a link to the latest Participating Vendor List. Annually, all employees reaffirm their understanding and compliance to the Conflict of Interest Policy. No member of Premier's leadership team, individuals who are in a position to influence the contracting decisions, or individuals who are director-level and above in group purchasing and/or their spouse or dependents can own equity in a participating vendor.

No employee should accept gifts, favors, entertainment or hospitality that is expressly meant to influence their decision-making or action affecting Premier, regardless of value. In no case should an employee or an employee's spouse or dependents accept a gift, entertainment, favor, honoraria, personal services payment, gratuity, benefit, loan, or hospitality of greater than nominal value from any participating vendor, nor from one specific person or group. Gifts of money in any amount may not be accepted including gift cards. Gifts not only include material goods, but also services, discounts on personal purchases of goods and services, non-business entertainment, personal travel or lodging, or any other arrangement that benefits the individual recipient. Entertainment includes but is not limited to tickets to sporting events, concerts and plays. An employee may not accept

any commission or payment of any kind from an outside concern in connection with work performed, services rendered, or supplies provided for or to Premier, unless specifically approved by the employee's manager. "Nominal value" means any item, service or other thing of value (not including cash or cash equivalents) that does not exceed \$50 per instance or \$100 in any given calendar year. Any item, service or other thing of value that costs \$10 or less is not counted toward the \$100 annual limit.

Lunch and dinner appointments and recreational activities, including but not limited to golf and tennis, paid for by outside concerns are acceptable if bona-fide business matters are discussed. However, such activities not related to bona-fide business matters are limited to a nominal value. No employee should accept the offer of recreational activities, including but not limited to golf and tennis, that is expressly meant to influence his or her decision-making or action affecting Premier, regardless of value.

Employees may attend events sponsored by vendors or business partners. However, travel and lodging expenses may not be paid by such vendors or business partners.

Sourcing committee members disclose any potential conflicts they may have through an annual process as well as prior to the commencement of any discussions. Premier's policy states that sourcing committee members and/or their spouse and dependents cannot have extensive equity in a participating vendor. "Extensive" means investments in three or more participating vendors in the general product area of the committee or investments in participating vendors in such product area that in the aggregate have a total value in excess of \$20,000.

Premier's Board Code of Ethics requires directors to have a duty of loyalty avoiding abuses of power and conflicts of interest as defined by the Board of Directors Conflict of Interest Policy. Annually, Premier's Board members must disclose any equity interest in vendors. Board members disclose any potential conflicts that they, their immediate family members and related parties may have as it relates to financial interest/other substantial personal interest/affiliation with a vendor, position of authority to influence an organization, compensation relationship with any company, use of non-public information, opportunities taken for personal gain and other interests, activities, investments or involvement relevant for full disclosure of all actual, apparent or potential conflicts of interest. Board members may hold equity but must disclose and recuse as appropriate.

5. Describe actions the GPO takes to avoid conflict of interest issues for members of the Board of Directors (e.g., disclosure and/or prevention of equity investments in participating vendor relationships and acceptance of gifts/meals/travel/entertainment paid for by vendors.)

Premier's Board Code of Ethics requires directors to have a duty of loyalty avoiding abuses of power and conflicts of interest as defined by the Board of Directors Conflict of Interest Policy. Annually, Premier's Board members must disclose any equity interest in vendors. Board members disclose any potential conflicts that they, their immediate family members and related parties may have as it relates to financial interest/other substantial personal interest/affiliation with a vendor, position of authority to influence an organization, compensation relationship with any company, use of non-public information, opportunities taken for personal gain and other interests, activities, investments or involvement relevant for full disclosure of all actual, apparent or potential conflicts of interest.

Acceptance of Gifts, Honoraria or Personal Services Payments: Directors, Immediate Family Members and Related Parties may not accept gifts, entertainment, favors, honoraria or personal services' payments, except of Nominal Value (see definition) from any Participating Vendor. Any director, Immediate Family or Related Party who has received such items from a Participating Vendor (a) must disclose such fact on an annual basis and prior to the commencement of discussions relating to the applicable Participating Vendor; and (b) must avoid participating in any discussions, negotiations, voting or other decisions relating to the Participating Vendor from whom such items have been received.

Travel, Meals and Entertainment: Breakfast, lunch and dinner appointments, recreational activities and travel paid for by outside concerns are acceptable if bona fide business matters are discussed. However, such activities not related to bona fide business matters are limited to a Nominal Value. No director shall accept an offer of meals, travel or recreational activities that is expressly meant to influence their decision making or action affecting Premier, regardless of value.

6. Describe the GPO's policies and procedures that address activities, including other lines of business of the GPO and/or its affiliates (including non-GPO services and strategic investments) that might constitute conflicts of interest to the independence of its purchasing activity. [1]

These business relationships have no bearing on GPO contracting decisions.

Premier, pursuant to its Group Purchasing Code of Conduct, discloses to its members and the public any equity interests held by it in a participating vendor. A participating vendor is a vendor that has a contract or submits a formal bid or offer to contract to provide goods or services to members. A potential vendor is a vendor of products or services to the healthcare industry that does not have a contract to provide goods or services to members, nor has it currently submitted a formal bid or offer to contract.

8. What policies or guidelines does the GPO have to address potential conflicts of interest with regard to other lines of business engaged in by the GPO and/or its parent or affiliated companies?

Premier has policies and procedures which address activities that might constitute a conflict of interest to purchasing activity. These are addressed in Premier's Group Purchasing Code of Conduct Conflict of Interest Provisions in sections 6-10.

MONIES FROM VENDORS

9. Describe the GPO's policy with respect to the receipt of sponsorship funds, grants for research or other educational programs, or any other source of non-administrative fee revenue from vendors. What policies does the GPO have to guard against any potential conflict of interest relating to such payments?

Participating vendors provide funds to Premier to purchase exhibition/booth space at Premier's national meetings. If a bidder is not awarded a contract, is that bidder able to review the decision criteria used to evaluate the bid? Include in your response a general description of the GPO's criteria for vendor selection.

All bidding processes are performed in coordination with a publicly accessible calendar on Premier's website. The Contract Bid Calendar is updated on a weekly basis to reflect changes to the current bid status.

If a bidder is not awarded a contract, the vendor should address their concerns, grievances or complaints about the contracting process and contract award decisions through our [Vendor Grievance/Inquiry Policy](#). Upon completion of Premier's vendor grievance process, a vendor may request further review of any outstanding concerns through the Healthcare Group Purchasing Industry Initiative (HGPII) Independent Evaluation Process. More information is available at <http://www.healthcaregpoii.com/abouthgpii/independentevaluation.html>.

Premier publishes on its website the general criteria which are considered during the identification, review, and selection of a new product or technology. These include, but are not limited to: quality, safety, clinical impact, cost effectiveness, physician preference, environmental impact, diversity, breakthrough potential and member input.

Premier's product planning process is designed to be standardized but flexible. Many factors go into the ultimate selection of a product or service for a group purchasing agreement. The best available clinical, technical and market information, along with expert

review give Premier member organizations the information they need to make sound product, service or solution choices.

Applicable products must be FDA-approved and demonstrate that they perform as designed in a safe and effective manner. A number of resources are used to gather information about products, including randomized controlled trials published in peer-reviewed professional journals, case studies, market guides or product comparisons, field trials, third-party analysis clinical staff surveys, quality monitors, customer satisfaction data and financial data. In addition, Premier's Safety Institute may evaluate product-related information/data involving patient and worker safety, as well as environmental issues. A product's functionality must be able to be objectively measured.

Premier's goal is to ensure that all interested suppliers and their products are considered and evaluated in a consistent, timely and fair manner, regardless of the size of a company, the breadth of its product line or its existing relationship with Premier. Premier's product planning process is shaped by the ever-changing needs of its members

18. Describe the GPO's policy with regard to the use of single, sole, dual, and multi-source procurement and provide an example or two to support use of these contracting tools.

Premier has sole-, dual- and multi-source agreements with vendors. Premier does not have single-source agreements. Quality Control Material is a dual-source award. Safety Phlebotomy is a multi-source award.

19. Does the GPO permit bundling of unrelated products or services from the same vendor or from different vendors? If so, under what circumstances would the GPO consider bundling to be appropriate?

No Premier GPO contracts should have bundling of Physician Preference Products with unrelated products. No Premier GPO contracts should have bundling of any unrelated products across different Vendors.

20. Describe the process for contracting for clinical preference items. Describe the GPO's policy guiding the appropriate length/term of contracts for clinical preference products.

Premier GPO contracts should be for 3 years or less, unless economic conditions require longer term agreements in the best interest of Members. Except in the case for Premier Performance Groups, Premier GPO sole-source contracts for Physician Preference Products and Services require review and approval by senior management, corporate compliance and legal. All Premier GPO contracts for Physician Preference Products should be written without GPO-imposed commitment levels.

ADMINISTRATIVE FEES

21. What is the GPO's practice regarding the amount of administrative fees accepted? If there is a written policy, please provide an electronic link or copy of the GPO's policy regarding these fees.

In April 2016, our Group Purchasing Code of Conduct was updated to eliminate section 10.g. Cap on Administrative Fees, bringing Premier in line with its principal competitors. Administrative fees are offered by suppliers in their response to Premier's Request for Proposal and are based upon the value they attribute to an agreement.

Group Purchasing Code of Conduct:

<https://www.premierinc.com/wpdm-package/supply-chain-management/?wpdmdl=3100&ind=7gqfyMWJjFLKVePvt3kvacd4LcEAljhARJoK8j43eogxOu6if61soc0bdBQfEAr1eDUfOoTFFW7r-UxHs9L9HQ>

23. Describe the range of administrative fees accepted and examples of the types of contracts (without specifying specific proprietary information) that have administrative fees greater than 3 percent.

In April 2016, our Group Purchasing Code of Conduct was updated to eliminate section 10.g. Cap on Administrative Fees, bringing Premier in line with its principal competitors. VENDOR GRIEVANCE PROCESS

26. Describe the GPO's policy and process with respect to responding to a vendor's grievance regarding the bid/award process.

Our [Vendor Grievance/Inquiry Policy](#), as communicated on our website, describes the process for vendors to follow to address concerns, grievances or complaints about the contracting process and contract award decisions. The process requires the vendor to notify Premier of the grievance within specified timeframes, either by sending an email to the designated Premier vendor grievance contact or, if the vendor wishes to remain anonymous, by contacting Premier's confidential [Ethics and Compliance Help Center](#).

All grievances are reviewed by a Grievance Review Panel that includes members of Premier's corporate compliance and legal departments and independent supply chain executives from Premier member organizations who were not involved in the award decision that forms the basis for the grievance. The Grievance Review Panel provides its report to Premier's supply chain leadership and the information is ultimately provided to the relevant member sourcing committee for its consideration and decision on the outcome of the grievance.

Upon completion of Premier's vendor grievance process, a vendor may request further review of any outstanding concerns through the Healthcare Group Purchasing Industry Initiative (HGPII) Independent Evaluation Process. More information is available at <http://www.healthcaregpii.com/abouthgpii/independentevaluation.html>.

27. Did any supplier, since submission of the last GPO's Public Accountability Questionnaire, request an evaluation pursuant to the HGPII Independent Evaluation Process? If so, please provide information regarding the outcome of such evaluation.

One vendor requested an evaluation by HGPII following the outcome of Premier's Grievance Review Panel decision. The vendor did not submit the requested documentation to HGPII by the established deadline. As a result, HGPII closed the evaluation.

28. Does the GPO participate in HGPII's Independent Evaluation Process?

Yes.

29. Is the HGPII Independent Evaluation Process displayed on the GPO's public website? If so, please provide an electronic link to this information.

Yes.

INNOVATION

30. Describe the GPO's policy and process to evaluate and provide opportunities to contract for innovative products and services.

An essential element of advancing the core objectives and mission of Premier is to encourage the development of healthcare technology that improves the quality, process, and/or outcome of care across all Premier agreements. The Technology Breakthroughs

Program was created in 1997 to improve Premier members' access to new technologies and provide a mechanism for suppliers to introduce innovative products. Premier is committed to a Technology Breakthroughs Program that is fair, timely, confidential, and unbiased, with an opportunity for review of decisions.

31. Does the GPO have the right to enter into a GPO contract for innovative technology at any time during its bid and award cycle? Describe the process the GPO has for fostering the development of GPO contracts for innovative products.

Yes, each Premier group purchasing agreement contains a Technology Breakthroughs clause that supports the review of breakthrough products and new agreements for products meeting breakthrough requirements.

32. Are GPO members allowed to evaluate products and/or communicate with vendors, regardless of whether a vendor has a contract with the GPO?

Yes, Premier's Group Purchasing Code of Conduct states that members can communicate directly with vendors to assess products or services provided by vendors which do not contract with the GPO.

33. Are GPO members allowed to purchase non-contracted products or services directly from non-participating vendors?

Yes, Premier's Group Purchasing Code of Conduct states that members may purchase physician preference products directly from vendors which do not contract with the GPO.

VENDOR DIVERSITY PROGRAMS

34. Describe the GPO's program or activities that encourage contracting with Diverse Suppliers (small, women-owned, veteran-owned, minority-owned). Explain how you promote or market those programs to the GPO's membership and to Diverse Suppliers.

As an organization built on the foundation of transforming healthcare within communities, Premier recognizes that supplier diversity is an important component of our members' success. Diverse Suppliers help our members create jobs and improve life in the communities they serve. Premier's Supplier Diversity Program supports our alliance members by:

- Integrating inclusive diversity practices into Premier Purchasing Partners operating units and processes.
- Ensuring diverse suppliers are proactively considered for contracting opportunities.
- Providing support to facilitate procurement from diverse suppliers.
- Encouraging contracted suppliers to support and procure from diverse suppliers.

Our supplier diversity program provides minority, women and veteran (veteran, disabled veteran, service-disabled veteran) business enterprises (MWVBEs) and small business enterprises (SBEs) the opportunity to partner with us to support our efforts to continually lead the way in healthcare innovation. Premier and its member organizations are committed to building a portfolio of contracted products and services that mirrors the demographics of the communities served.

Sourcing Education and Enrichment for Diverse and Small Suppliers (SEEDS™), a part of the supplier diversity program, provides the resources and tools to help MWVBE and SBE vendors gain contract sales with members and build long term relationships. SEEDS includes coaching, mentoring, business educational tools and a stair-stepped approach to contract enabling Diverse Suppliers to grow at a pace that is commensurate with their existing business infrastructure. We also help MWVBE and SBE vendors learn how to work with our members and distributors to achieve local, regional and national distribution capabilities. Moreover, the program provides contracted suppliers with experienced resources and educational tools. These tools are intended to assist our suppliers in gaining contract sales with our members and building long-term relationships across the Premier healthcare alliance.

Premier promotes its supplier diversity program through several opportunities. Premier's Supply Chain Advisor, a supply chain tool for managing contracts and activating best price opportunities, displays diversity status flags and reporting capabilities to facilitate procurement from diverse, veteran and small business suppliers. Premier's Supplier Diversity Committee hosts an annual Diverse Supplier Forum that showcases success stories, educates diverse suppliers how to grow their sales volume using Premier contracting strategies, and includes a reverse trade fair encouraging networking between diverse suppliers and members. Diverse and small suppliers exhibiting at Premier's Annual Breakthroughs Conference and Exhibition are showcased in a designated area called "Diversity Zone". Participating suppliers also have an opportunity to attend clinical and supplier diversity focused concurrent sessions to learn and network with our members.

Premier recognizes member health systems and contracted suppliers with Diversity Recognition Awards for their efforts to support minority-, women-, veteran-owned and small business suppliers which help strengthen local community business development endeavors. The awards are presented at the Annual Breakthroughs Conference and Exhibition.

35. Has the GPO increased contracting with Diverse Suppliers over the prior year(s)? If so, quantify these increases within each Diverse Supplier category (SBE, WBE, VBE, and/or MBE).

Yes, contract utilization by Premier members with diverse (MWVBEs) and small business suppliers continues to increase. This success is a result of the partnering effort between Premier, its members and the supplier community. Key examples of success include:

- In 2016, Premier members spent \$773 million on products and services from MWVBE and SBE vendors.

- In 2016, our portfolio of contracted diverse vendors maintained our all-time high of 399 agreements representing 332 MWVBE and SBE vendors.

36. Does the GPO have a Supplier Diversity Committee or other program or group for developing diversity goals and expanding opportunities? If so, describe. What are its mission, goals, and objectives? Does it work directly with the GPO's sourcing team in developing its goals and expanding opportunities? What are the Committee's significant achievements over the GPO's last fiscal year? If it is a committee, who are its members and how frequently does it meet?

Yes, Premier's Supplier Diversity Committee is comprised of representatives of Premier's member hospitals and provides direction and oversight for Premier's supplier diversity initiatives. The Supplier Diversity Committee meets monthly. Its mission is to provide diverse MWVBE suppliers with the opportunity to partner with Premier and lead the way in healthcare innovation. The committee oversees implementation of Supplier Diversity Policies and assists in developing communication plans for supplier diversity initiatives. Premier's annual goals measure both supplier reported sales volume and number of suppliers with active group purchasing agreements within our portfolio. The Supplier Diversity Committee works directly with sourcing professionals to review SEEDS bid submissions and award SEEDS group purchasing agreements. A significant accomplishment over the past year includes the identification of product categories where diverse suppliers can be considered for additional penetration within the committee member's respective hospital system. Monthly reporting showcases opportunities to convert business to diverse and small businesses. This strategy has increased the sales volume of diverse and small businesses by an average increase of 10% over the past eight years.

37. Does the program described in question 36 provide education to member health systems regarding diversity program best practices and/or how to establish a Supplier Diversity Program within their system? Does it solicit member feedback to ensure it is meeting member expectations?

Yes. Premier's Annual Breakthroughs Conference and Exhibition offers a Supply Chain: Supplier Diversity track for members to attend. These concurrent educational sessions cover best practices and other programming on how to implement a Supplier Diversity program.

38. Describe any other actions concerning Supplier Diversity you think are important that are not covered by the preceding questions.

CODE OF CONDUCT

39. Provide a copy of (as well as an electronic link to) your GPO's written code of business ethics and conduct and describe any changes from the previous HGPII reporting year.

Premier's Group Purchasing Code of Conduct serves as the company's guide regarding GPO practices. In April 2016, our Group Purchasing Code of Conduct was updated to eliminate section 10.g. Cap on Administrative Fees, bringing Premier in line with its principal competitors.

40. Describe whether and in what manner the GPO distributes its written code of business ethics and conduct to all applicable employees, agents, contractors, clinical advisory committees, and others involved in group purchasing activity. How often is the code of conduct provided to employees? Do employees receive annual refresher training on the GPO's ethics and the code of conduct? Describe the content of the training and the method of delivery.

Premier's Group Purchasing Code of Conduct is publicly available on our website for employees, agents, contractors, clinical advisory committees and others involved in group purchasing activity. As part of new hire orientation and ongoing semi-annual initiatives, all employees receive ethics and compliance education as well as information regarding Premier's Code of Conduct and Group Purchasing Code of Conduct, including a link to both online Code resources. Additional targeted face-to face, online and direct email education is provided for all employees involved in group purchasing activities.

41. Describe the mechanism (e.g., a corporate review board, ombudsman, corporate compliance or ethics officer) for employees to report possible violations of the written code of business ethics and conduct to someone other than one's direct supervisor, if necessary.

A core element of Premier's Corporate Compliance Program is the Help Center which is an anonymous third-party reporting tool to report misconduct, ask questions and promote a positive work environment. Individuals have the ability to file a confidential, anonymous report via the telephone or online 24 hours a day, seven days a week. Individuals may also follow up on a report in an anonymous manner. In addition, employees may contact Premier's Chief Ethics & Compliance Officer or human resources to raise questions and concerns.

REPORTING POTENTIAL ETHICAL VIOLATIONS

42. What process is used to protect the confidentiality of the reporting employee's identity and what safeguards are in place to mitigate the opportunities for retaliation?

Confidentiality is protected at all times but may not be guaranteed in the event that an employee reports and provides material evidence of a violation of law or dire safety of another employee. Even in these cases, the company will take the appropriate security measures to preserve the confidential nature of the report.

Premier's Code of Conduct states that any person who asks a question about, or in good faith reports an actual or suspected violation of the Code of Conduct will be protected from threats of retaliation, discharge or other types of discrimination, even if the report turns out to be incorrect. This protection also extends to anyone who assists in the investigation of a potential violation.

Premier has a stated non-retaliation policy and takes retaliation seriously. Premier prohibits retaliation against anyone who, in good faith, reports a possible violation or who participates in an investigation, even if sufficient evidence is not found to substantiate the concern. Premier takes appropriate disciplinary action against any individual determined to be engaging in retaliatory conduct up to and including termination of employment.

43. Describe how the GPO follows up on reports of suspected violations of the code of business ethics and conduct to determine if a violation has occurred and if so, who was responsible. Describe corrective and other actions taken in such circumstances.

Upon receipt of a suspected violation, reporters can expect:

- Their concern or questions will be taken seriously.
- Their request for information or action will be handled promptly, discreetly, and professionally. Discussions and inquiries will be kept in strict confidence to the extent appropriate or permitted by policy or law.
- The individual's right to remain anonymous will be respected although they are encouraged to identify themselves.
- The Chief Ethics & Compliance Officer will immediately arrange for a detailed investigation to be conducted.
- The investigation will, as appropriate, include interviews of knowledgeable personnel and the review of relevant documents. All employees must fully cooperate with any internal or external investigation including producing relevant documents and participating in interviews.
- Individual accountability for adherence to the Code of Conduct is critical. Violations of our Code of Conduct are serious. A violation, including a failure to report potential violations by others, will be viewed as a severe disciplinary matter and may result in personnel action, including termination of employment.

44. Describe the processes the GPO follows up on, to monitor on a continuing basis, adherence to the written code of business ethics and conduct, and compliance with applicable federal laws.
