

2021 PUBLIC ACCOUNTABILITY QUESTIONNAIRE

This Questionnaire Covers Calendar Year 2021.
Please return your response to jeri.freirich@arentfox.com no later
than **June 3, 2021**.

OWNERSHIP AND ORGANIZATIONAL STRUCTURE

1. Describe the ownership structure of your GPO and/or its parent or affiliated companies, including details regarding the following:
 - Person(s) or entities that control the majority of voting interests in your GPO;
 - Intermountain Health Services, Inc.
 - The types of equity holders of your GPO (e.g., publicly held company, healthcare providers, individuals, for-profit and/or not-for-profit entities);
 - Healthcare provider
 - The corporate form of your GPO and/or its parent or affiliated companies – such as corporation, partnership, limited liability company, co-op;
 - Corporation
 - Whether the GPO is organized as a for-profit or not-for-profit organization; and
 - For-profit
 - Location of corporate headquarters.
 - 2 CityPlace Drive, Suite 400, St. Louis, MO 63141
2. Describe the composition of your Board of Directors or other governing body and reflect any changes from the previous HGPII reporting year. Include the following in your response:
 - Number of individuals serving on your Board;
 - 3
 - Percentage of Board representing GPO customers;
 - 33.33%
 - Percentage of Board that are employees of the GPO; and
 - 33.33%
 - Percentage of Board members also serving as employees, officers, or directors of a participating vendor.
 - 0%
3. Indicate whether any equity holder of your GPO and/or its parent or affiliated companies is a physician (or an immediate family member of a physician).
 - None

CONFLICT OF INTEREST

4. Describe the GPO's policies and procedures that address conflicts of interest for:
- Employees in a position of influence with regard to contracting decisions;
 - Intalere's board members, management, and employees will ensure a competitive environment by avoiding any activities or circumstances that could create any actual or perceived conflict of interest. Intalere policy prohibits Intalere owning an equity stake in any contracted supplier* and does not permit any contract administrative fees to be taken in advance. Board members, management, and employees are expressly forbidden from providing or accepting gifts, favors or entertainment, other than of nominal value, designed to influence the individual in the performance of their duties. In addition, Intalere senior management is prohibited from owning any individual equity interest in any of Intalere's business partner companies and must divest themselves of stock holdings in companies with which Intalere contracts, within six months of any contract award. These policies, designed to prevent any actual or perceived conflicts of interest, are monitored and enforced by Intalere's compliance officer, its chief financial officer/corporate treasurer and secretary, who reports directly to the board in these matters.
 - Clinical Advisory Members; and
 - Members of advisory committees are required to recuse themselves from decisions on suppliers in which they have investments.
 - Members of the GPO's Board of Directors or other governing body.
 - A separate policy was developed for the Board of Directors and was adopted in December 2007. Board members are required to document any conflicts of interests on an annual basis.

As part of your response, provide details about reporting requirements for conflicts and provide a copy of written policies.

- Any reports of an ethics violation are investigated by the Chief Compliance Officer (CCO). The CCO may get others involved based on their expertise. All investigations documented until resolution and are maintained in the Compliance Log. All reports of an ethics violation and their resolution are reported to the Board on a quarterly and annual basis or sooner if deemed necessary. If the report of violation involved the CCO, the process is the same with the exception that the violation would be investigated by the SVP, Human Resources.
 - A copy of "Intalere Standards of Business Ethics and Conduct" is at the end of this questionnaire.
5. Describe actions the GPO takes to avoid conflict of interest issues for members of the Board of Directors (e.g. disclosure and/or prevention of equity investments in participating vendor relationships and acceptance of gifts/meals/travel/entertainment paid for by vendors).
- Gifts or promotional items of nominal value (not to exceed \$50 per instance or \$100 in any calendar year) may be accepted by members of the Intalere Board of Directors provided they are not an inducement for business. Disclosure is required on the annual Board of Director Conflict of Interest statements.

6. Describe the GPO's policies and procedures that address activities, including other lines of business of the GPO and/or its affiliates (including non-GPO services and strategic investments) that might constitute conflicts of interest to the independence of its purchasing activity. [1]
- Intalere will not accept a corporate equity interest from any supplier nor will Intalere purchase such equity interest*.
 - Intalere accepts sponsorship fees and booth exhibit fees in connection with its annual membership and supplier meetings each year. The money collected covers the costs associated with the meetings and help defray the costs for the attending members.

OTHER LINES OF BUSINESS

7. Describe other lines of business or investments of the GPO and its affiliates. We are interested in hearing about new as well as nontraditional GPO services that your company and its affiliates are involved with.
- Intalere owns five additional business units which are complementary to the Group Purchasing Business.
 - Intalere Choice is a private label unit that provides a portfolio of products at prices below the market for branded products.
 - DataBay Resources is a unit that has developed a series of technologies and products that are primarily utilized by hospitals, related health care businesses and insurance companies in a variety of settings including data collection, reporting and strategic planning.
 - Tempest Med is a healthcare solutions organization dedicated to the non-acute alternate site marketplace. Tempest Med provides pharmacy revenue cycle management, a portfolio of GPO contracts and services, and insurance contracts with prescription drug plans and pharmacy benefit managers.
 - Intalere Insurance Services is a proprietary approach to benefit and risk cost containment strategies that provide long-term insurance solutions for healthcare providers with broader coverage and lower total costs.
 - CSI Specialty Group, a customized Pharmacy Consulting Service, is a full-spectrum suite of services built to meet the growing challenges of understanding how to position specialty pharmacy as an offering, while empowering healthcare providers to deliver a complete patient centric solution that drives accelerated growth and mitigates financial risk. CSI ceased operations in May 2020.
 - Intalere owns 50% of National Purchasing Partners, a non-healthcare group purchasing organization.
8. What policies or guidelines does the GPO have to address potential conflicts of interest with regard to other lines of business engaged in by the GPO and/or its parent or affiliated companies?
- Intalere will not accept a corporate equity interest from any supplier nor will Intalere purchase such equity interest*.

* Representatives of Intalere's parent company currently manage a portion of Intalere's investment portfolio. These investment managers may, in their discretion and from time to time, choose to make non-material investments in healthcare companies with which Intalere does or may contract. The managers make all investment decisions without knowledge of Intalere's business relationships, and Intalere does not participate or provide input to the managers on their investment decisions.

1 Business concerns, organizations, or individuals are affiliates of each other if, directly or indirectly, (1) either one controls or has the power to control the other, or (2) a third party controls or has the power to control both. (See 48 CFR, Section 9.403 (2007); Securities Act, Sec. 16, 15 USC 77p(f)).

MONIES FROM VENDORS

9. Describe the GPO's policy with respect to the receipt of sponsorship funds, grants for research or other educational programs, or any other source of non-administrative fee revenue from vendors. What policies does the GPO have to guard against any potential conflict of interest relating to such payments?
- Intalere accepts sponsorship fees and booth exhibit fees in connection with its annual membership and supplier meetings each year. The money collected covers the costs associated with the meetings and helps defray the costs for the attending members.
 - Actual or potential sponsorship funds, grants for educational programs, or any other source of non-administrative fee revenue from vendors are not ever considered in the evaluation of negotiations with, or the selection of vendors for GPO contracts.
 - All funding is disclosed on an annual basis to members via the annual safe harbor reporting process.
10. Does the GPO and/or its parent or affiliated companies accept vendor fees relating to conference sponsorship or exhibit booth space? What policies does the GPO have to guard against a potential conflict of interest relating to vendor participation in industry trade shows, and donations in general?
- Intalere accepts sponsorship fees and booth exhibit fees in connection with its annual membership and supplier meetings each year. The money collected covers the costs associated with the meetings and help defray the costs for the attending members.
 - Actual or potential vendor fees relating to conference sponsorship or exhibit booth space are not ever considered in the evaluation of negotiations with, or the selection of vendors for GPO contracts.
 - All funding is disclosed on an annual basis to members via the annual safe harbor reporting process.
11. Describe any services or products the GPO or its affiliates provide to vendors on a fee-for-service basis (e.g. data, claims processing, etc.).
- Intalere, through its subsidiary, CSI, may provide consulting services to vendors as part of its normal business activities. These services are unrelated to, and have no bearing on, GPO contract decisions. CSI ceased operations in May 2020.
12. Does the GPO make annual disclosures of administrative fees received from vendors for contracting activities with respect to the member's purchase of products and services (e.g. safe harbor reports)? If this document is publicly available, provide an electronic link to this information.
- Yes, disclosure of fees to be collected under the terms of contracts with suppliers are contained in the Contract Data Sheets that are available in Intalere's electronic catalog. In addition, Intalere provides reports to its members on an annual basis that detail administrative fees received on their purchases.
13. Does the GPO disclose to members all payments other than administrative fees the GPO receives from any vendor in the course of the GPO's group purchasing activities (e.g. booth space, educational grants, marketing fees, honoraria, etc.) whether from the purchasing activity of those members or not? Describe your disclosure practices.

- Yes, all payments received by Intalere are disclosed to members as part of the Annual Safe Harbor Reporting process.
14. Describe the GPO's policy with respect to returning administrative fees to an ineligible vendor.
- Intalere accepts fees for members who drop membership entirely for a period of 12 months as often the transition to another GPO takes a period of time and the fees are still due under the contract terms. Intalere believes that any purchase pursuant to one of its contracts is a purchase by an eligible member and reports all member purchases as required by the safe harbor regulations on an annual basis. In instances when a vendor reports inaccurate amounts or identifies payments that were not made on an Intalere contract, the vendor is notified, and the fees are returned upon request.

MEMBER FEES

15. Does the GPO pay fees or offer equity to members upon the signing or re-signing of a participation agreement with the GPO or the joining or renewal of membership in the GPO program?
- No, fees are paid on reported contract purchases only.

BID AND AWARD/CONTRACTING ISSUES

16. Does the GPO have a publicly-available description of its bid and award process? If so, provide a link and written description of your bid and award process. If not, describe how it may be obtained.
- Yes. The current documents are posted on the Intalere website <https://www.intalere.com/>
 - See <https://www.intalere.com/Portals/0/Documents/Intalere-Contracting-Process.pdf>
17. Describe the GPO's requirements for how products or services are published so they are accessible to potential vendors. If a bidder is not awarded a contract, is that bidder able to review the decision criteria used to evaluate the bid? Include in your response a general description of the GPO's criteria for vendor selection.
- A calendar of product categories is posted on the website. Suppliers can indicate their interest in bidding on a particular product category directly on the website. See <http://www.intalere.com/Suppliers/Bid-Calendar-and-RFP-Process.aspx>.
 - Bidders are able to contact the Category Leader to discuss the results of the bid.
18. Describe the GPO's policy with regard to the use of single, sole, dual, and multi-source procurement and provide an example or two to support use of these contracting tools.
- Intalere primarily awards agreements on a dual-source basis; however, this may be modified as appropriate for a product category when deemed necessary by Intalere. The Request for Proposal (RFP) will clearly identify the type of award that is being considered in the contract category development process. The following definitions identify the various types of product awards:
 - Sole Source – refers to those categories where there's only one supplier that provides the product.
 - Single Source – refers to categories where, even though there are other suppliers that provide similar products, only one supplier is contracted with.

- Dual Source – refers to categories where two suppliers are contracted with to provide similar products.
- Multi Source – refers to categories where several suppliers are contracted with to provide similar products.
- Exclusive Source – refers to categories where each party agrees to contract with only the other party for a defined period of time.
- In all situations, Intalere reserves the right to make an award on a market needs basis by market (class of trade, geographical region, etc.).
- Important Notes:
 1. Options Agreements. Intalere strives to support its existing contract suppliers to the extent possible. Intalere will work to support the suppliers under contract in the specific product category as much as possible when a member is evaluating a product category; however, specific member(s) may request that Intalere include suppliers not currently under contract for the particular product category.
 - 2) Supplier Diversity Contracting. Intalere reserves the right to address member needs relative to supplier diversity (minority, women and disabled American Veteran owned businesses) contracting. These agreements will not be considered in violation of an existing agreement(s) when negotiated with certified supplier diversity suppliers for specific members.
 - 3) Overlaps in Product Categories. Many supplier portfolios are large and contain products that are included in another contracted supplier’s portfolio. Many times, the overlap products are small or minimal in nature and do not affect the award or competitiveness of the award. Intalere reserves the right to include overlap products on an agreement without violating other existing agreements.
 - 4) New Technology. Driven by its members, Intalere has and will continue to use and enforce its New Technology clause and add suppliers as applicable. At its discretion, Intalere will consider adding agreements and/or products in new technology areas without going through the described bid/RFP process. In all cases, Intalere will consult with the appropriate member groups for review and evaluation. This evaluation may take a number of avenues, which includes, but is not limited to:
 - a) Requesting that the supplier with the proposed niche technology product meet with the member group, as appropriate, for a review and demonstration of the product and the new technology claim,
 - b) Providing literature and samples to the member group representatives for review at their individual facilities,
 - c) Review the technology during a routine conference call or similar venues,
 - d) In all situations, the final decision will be communicated to the interested supplier within 60 days of the meeting or call.

19. Does the GPO permit bundling of unrelated products or services from the same vendor or from different vendors? If so, under what circumstances would the GPO consider bundling to be appropriate?

- Intalere’s code generally prohibits aggregating unrelated products and services from the same supplier. Aggregation may occur on a limited basis and will only occur when:
 - a) Intalere determines that its members’ interest in obtaining high-quality products and services at the lowest possible prices will be served using such practices.
 - b) it does not interfere with RFP competition or unreasonably foreclose competition.
 - c) it does not unreasonably limit member choice or flexibility.
 - d) it does not prevent innovative technology from reaching members.
 - e) it does not interfere with the participation of specialized suppliers [For example, Intalere reviews product categories (as defined by our client committees and leadership) as they are re-bid to ensure that GPO contracts do not aggregate equipment,

products and services, or services in such a way as to exclude small suppliers from contract awards].

- In such cases, Intalere will make a determination if it can negotiate such terms to allow these goals to be achieved.
- It is Intalere's desire to treat each unique sourcing product line/category as its own project. Intalere may, however, based on clinical direction, consider products that are closely related or work together and treat the sourcing opportunity as a system project versus a single product line in an effort to provide the best overall value for its members. (For example, IV Therapy that is considered a system project would include IV sets, solutions and pumps together, instead of having a separate sourcing project for each category.) Intalere carefully assesses all proposed multi-product proposals and multi-product packages for a group of functionally-related products that may be offered when consistent with the overriding objective to provide members with the most innovative, cost-effective products possible.
- Related products are generally grouped by procedure or process. Intalere's group purchasing categories are not defined by what the largest suppliers offer in their "product line." Generally, contracts are bid and awarded by category (not by supplier) even though this may result in Intalere entering into several separate contracts with large, diversified suppliers.
- Pharmaceutical contracts are bid and awarded by broad therapeutic category (e.g., branded pharmaceuticals, generics and fractionated blood products).
- With respect to physician preference products, Intalere does not permit any supplier to aggregate unrelated products on Intalere contracts.
- Intalere allows a supplier to give additional rebates or discounts for purchases of unrelated products for that supplier if Intalere determined that such practices conform to relevant law and that they yield lower pricing for the members.
- Intalere does offer optional programs and tiered pricing to its customers, wherein customers may improve their pricing on a particular product or service by purchasing an increased volume or by purchasing together certain other related products or services.
- All products or services offered in the Intalere portfolio are separately offered and no customer is required to purchase one product or service in order to have access to another product or service.
- All purchases of additional products or related products to increase pricing flexibility is solely at the customer's discretion.

20. Describe the process for contracting for clinical preference items. Describe the GPO's policy guiding the appropriate length/term of contracts for clinical preference products.
- Because of the importance of choice of clinical preference products in the delivery of quality patient care, Intalere maintains the following policies in sourcing for such products:
 - All Intalere contracts for clinical preference products will be limited to three (3) years or less.
 - Administrative fees for all Intalere contracts for clinical preference products will not exceed three (3) percent.

ADMINISTRATIVE FEES

21. What is the GPO's practice regarding the amount of administrative fees accepted? If there is a written policy, please provide an electronic link or copy of the GPO's policy regarding these fees.
- The overall average administrative fee is less than 3% and there is no minimum administrative fee requirement.
 - Administrative fees are negotiated on an individual contract basis.
 - Intalere does not impose a minimum fee on any supplier.

- The majority of Intalere contracts and for clinical items, in particular, have a 3% administrative fee or less.
 - 92.8% of all contracts include fees of 3% or below and 7.2% of all contracts have fees above 3%. All fees are disclosed and reported per Federal Safe Harbor guidelines.
22. Describe the conditions in which the GPO accepts administrative fees beyond 3 percent, requiring specific (not blanket) disclosure under the Federal Regulatory Safe Harbor provisions?
- These agreements are typically services such as, consulting, relocation, and insurance.
23. Describe the range of administrative fees accepted and examples of the types of contracts (without specifying specific proprietary information) that have administrative fees greater than 3 percent.
- 3.1 - 5% - Consulting Services, Pest Management
 - 4% - Office furniture, Moving/Relocation Services. Also, Intalere contracts with another GPO which provide contracting services to Intalere for use by their members. Fees associated with contracts negotiated by this organization vary by manufacturer with overall return to Intalere of 4% of agreement sales.
 - 5% - Medical transcription, network services, supply chain consulting

PRIVATE LABEL PROGRAMS

24. Describe whether the GPO has a private label program and if so, describe the products the private label program covers.
- Intalere provides additional value to members through Intalere Choice, a preferred portfolio & private label program.
 - All Intalere Choice agreements shall be at least dual sourced with comparable branded products.
Intalere will not issue any Intalere Choice preferred portfolio agreements for clinical preference medical device products. The products covered under this program are primarily commodity and pharmacy products.
 - Fees are paid by suppliers in the form of annual license/Program fees, which are based upon the value of the Intalere Choice name, additional sales and marketing efforts by a dedicated Intalere Choice team and overall volume of the program.
 - Intalere has policies/procedures in place that outline the process of determining appropriate product categories for private label consideration, evaluating proposals, and making award decisions.
25. Describe the GPO's practice regarding administrative fees derived from a private label program.
- Intalere receives license/Program fees from vendors participating in the Intalere Choice program. Intalere discloses all such licensing fees to its clients through contract data sheets and the Annual Safe Harbor reports. Intalere does not accept upfront fees, marketing fees, signing bonuses or equity arrangements.
 - Private label agreements are three party agreements between Intalere Choice, Intalere, and the supplier. An administrative fee of 3% or less is paid to Intalere. A license/Program fee is paid to Intalere Choice, a subsidiary of Intalere, which is based upon the value of the Intalere Choice services provided pursuant to the contract.

VENDOR GRIEVANCE PROCESS

26. Describe the GPO's policy and process with respect to responding to a vendor's grievance regarding the bid/award process.
- Any supplier who believes they have a grievance concerning their experience with the Intalere competitive contracting process may file a grievance in writing within thirty (30) days of the announcement of the award by sending an e-mail to the appropriate Category Leader stating the reasons for the grievance with copies to Steve Schoch, the Intalere Compliance Officer (steve.schoch@intalere.com) and Todd Larkin, Chief Operating Officer (todd.larkin@intalere.com).
 - Intalere will acknowledge receipt of grievance immediately and provide a detailed response within ninety (90) days. Included in the response will be the following information:
 - Major elements which were considered in the final selection
 - Rationale for final decision
 - In the event that this review indicates that the appropriate contracting processes were not followed by the Intalere contracting team, the Intalere Chief Operating and Compliance Officers will identify, in their sole discretion, a course of action, which may or may not include reevaluating the award decisions.
27. Did any supplier, since submission of the last GPO's Public Accountability Questionnaire, request an evaluation pursuant to the HGPII Independent Evaluation Process? If so, please provide information regarding the outcome of such evaluation.
- No
28. Does the GPO participate in HGPII's Independent Evaluation Process?
- Yes
29. Is the HGPII Independent Evaluation Process displayed on the GPO's public website? If so, please provide an electronic link to this information.
- Yes, <http://www.intalere.com/Suppliers/Supplier-Grievance-Process.aspx>

INNOVATION

30. Describe the GPO's policy and process to evaluate and provide opportunities to contract for innovative products and services.
- Intalere is committed to providing our members access to appropriate innovative or new technology companies that are interested in partnering with healthcare group purchasing organizations. To ensure true member benefit, acceptance of innovative or new technology into our customer-focused portfolio is determined by member input and thorough evaluation process.
 - Process for Innovative or New Technology Contracting - <http://www.intalere.com/Portals/4/Documents/Intalere-Emerging-Technology-Program-Information.pdf?ver=2019-03-11-114656-250×tamp=1552319233609>
 - Innovative or New Technology Questionnaire - <http://www.intalere.com/Portals/4/Innovative-New-Technology-Questionnaire.pdf>
 - **Definitions**
 - Niche: Unique/different product (compared to existing products on contract) in the marketplace as determined by Intalere.

- New/Emerging Technology: A company/product that has claimed “new” technology. This can be verified by Intalere’s review or input from the Intalere Member Input Board (MIB).
- “Me-too” Product: A product that is considered very similar (without technologically differentiating features) to existing contracted products. Intalere retains the right to make this decision relative to products in question (see process below).
- **Evaluation of a niche or new/emerging technology submission**
 - Intalere, at its discretion, will determine if a product is truly a niche or new/emerging technology product. In the event that there is a question relative to the product and its applicability to this process, Intalere will have it evaluated by utilizing existing processes for member input.
 - Any company/product that is considered a “me-too” product will be provided an opportunity to participate in the next regularly scheduled bid cycle for the product category. Consult the Intalere Contracting Process on the Intalere public website for directions.
 - All company/product recommendations provided by the Intalere MIB will be considered in the final discussions. The affected supplier will be notified within 30 days.
 - Intalere reserves the right in its sole discretion to decide whether a product is a niche or new technology product.
- **Criteria**
 - In order to be considered an Intalere eligible supplier, the following criteria must be met:
 - Must complete the Intalere Group Purchasing Agreement.
 - Must have appropriate distribution – direct or through distributors.
 - Must provide complete electronic reporting for all member sales on a quarterly basis
 - An electronic spreadsheet is appropriate.
 - The service area may be regional or national.
 - Must have a dedicated customer service department capable of responding to the Intalere membership in a timely manner.
 - All products must carry the appropriate Federal approval(s).
 - Products must be made available to all appropriate markets.
 - Must recognize and honor all of the Intalere membership.
 - Intalere must be kept competitive throughout the entire contract period.
 - Must have adequate production capabilities for the anticipated market(s) and regions (or national) to be served.
 - Must agree, as appropriate, to an Intalere site visit.
 - These criteria may be adjusted as appropriate.

31. Does the GPO have the right to enter into a GPO contract for innovative technology at any time during its bid and award cycle? Describe the process the GPO has for fostering the development of GPO contracts for innovative products.

- Yes. Intalere has a dedicated page on the public website for Innovative/New Technology. Currently contracted and potential suppliers can visit this page to review Intalere’s commitment to including innovative technology in the contracting process. Suppliers are directed to complete and submit the Innovative or New Technology Questionnaire. The completed questionnaire will be reviewed by the Emerging Technology Task Force to determine if proposed innovative technology is indeed new or if like products currently reside in the Intalere portfolio. If considered new, the supplier will be invited to showcase their product at Intalere’s annual Emerging Technology Tradeshow, held in conjunction with the Elevate Member Conference. At this event, Intalere staff and key members visit the supplier

tables to view demonstrations and/or learn about the technology. Attendees complete a scorecard, providing feedback on each supplier's product/service. The feedback is reviewed, and scores are culminated and brought before the Emerging Technology Task Force for review and determination of potential next steps. If determined the product is innovative and/or has attributes that make it new technology, the appropriate contracting staff will be advised to proceed with supplier discussion regarding a potential contract. If determined by the Emergency Technology Task Force that the product did not score well or have enough member interest, the supplier will be referred to the Bid Calendar to participate in the next RFP opportunity for that product category. **NOTE: This event has been cancelled for 2020 & 2021 due to the pandemic. Applications were evaluated by the Emerging Technology Task Force on an individual basis in the absence of the tradeshow.**

32. Are GPO members allowed to evaluate products and/or communicate with vendors, regardless of whether a vendor has a contract with the GPO?
 - Yes
33. Are GPO members allowed to purchase non-contracted products or services directly from non-participating vendors?
 - Yes, Intalere's flexibility allows for members to write custom agreements and private agreements.

VENDOR DIVERSITY PROGRAMS

34. Describe the GPO's program or activities that encourage contracting with Diverse Vendors (small, women-owned, veteran owned, minority-owned). Explain how you promote or market those programs to the GPO's membership and to Diverse Vendors.
 - Intalere actively seeks out diversity suppliers, including veteran, minority, and woman-owned business, and encourages member suggestions for potential diversity suppliers. Intalere members are free to decide to purchase outside of the Intalere contract portfolio based upon their own assessment of the importance of engaging diversity suppliers without conflict or pressure from Intalere.
 - Intalere provides its membership access to an index of all contracted diverse suppliers. This information is also stated on each applicable contract data sheet which is used to overview each contract.
 - Intalere is also one of the founding members of the Healthcare Supplier Diversity Alliance (HSDA) which is an informal network of healthcare organizations who are working together to grow market share for diverse companies in healthcare. HSDA builds and facilitates programs that raise awareness of supplier diversity in healthcare, provides diversity business enterprises with information and instruction on navigating the healthcare supply chain that will enhance the development of their organizations, and builds network relationships to provide opportunities to strengthen market share.
35. Has the GPO increased contracting with Diverse Vendors over the prior year(s)? If so, quantify these increases within each Diverse Vendor category (SBE, WBE, VBE, and/or MBE).
 - Overall contracting activities with diverse vendors decreased in 2020 by 6.7% in comparison to 2019. However, sales appear to be growing in 2021 YTD at a rate to surpass 2019 sales numbers.
36. Does the GPO have a Vendor Diversity Committee or other program or group for developing diversity goals and expanding opportunities? If so, describe. What are its mission, goals, and

objectives? Does it work directly with the GPO's sourcing team in developing its goals and expanding opportunities? What are the Committee's significant achievements over the GPO's last fiscal year? If it is a Committee, who are its members and how frequently does it meet?

- Intalere does not currently have a Supplier Diversity Committee. We do have a Supplier Diversity Program Manager who works with customers as requested, contracting staff and suppliers in order to explore opportunities related to Supplier Diversity. The goals of the program are to make sure diversely owned suppliers are treated fairly and equitably in RFP opportunities; to market contracted diverse suppliers to Intalere members and support related member needs; and to provide certain benefits that exist only for contracted diverse suppliers. Intalere firmly believes that minority-owned, veteran-owned, and women-owned businesses are the cornerstones of economic development. The Intalere Supplier Diversity Program works to solidify that foundation and create increased opportunities for these businesses.
- Intalere fosters business relationships with minority-owned, veteran-owned, and women-owned businesses where it supports and reflects the needs of the membership. In addition, those contracted Intalere suppliers that do business with minority-owned, veteran-owned, and women-owned suppliers will be viewed as providing additional value to Intalere members.
- To be considered for a first-tier position, a minority-owned, veteran-owned, and women-owned business must provide market competitive pricing and/or service and support and provide a purchase advantage for Intalere members. Intalere also cultivates minority-owned, veteran-owned, and women-owned businesses by linking them with Intalere supplier partners interested in this type of business development. Minority-owned, veteran-owned, and women-owned businesses not interested in a direct contracting relationship might provide a finished product or service that is incorporated into the offering of another Intalere supplier partner, thus benefiting from the national presence of their new partner.
- Intalere is also one of the founding members of the Healthcare Supplier Diversity Alliance (HSDA) which is an informal network of healthcare organizations who are working together to grow market share for diverse companies in healthcare. HSDA builds and facilitates programs that raise awareness of supplier diversity in healthcare, provides diverse business enterprises with information and instruction on navigating the healthcare supply chain that will enhance the development of their organizations, and builds network relationships to provide opportunities to strengthen market share.

37. Does the program described in the previous question provide education to member health systems regarding diversity program best practices and/or how to establish a Vendor Diversity Program within their system? Does it solicit member feedback to ensure it is meeting member expectations?

- Intalere's Supplier Diversity Program Manager provides information and guidance to members as requested in order to support members with their supplier diversity program efforts. The Program Manager asks each member directly when working with them what needs they have and if Intalere can assist them in any further way to meet those needs.
- Intalere has partnered with RLC Consulting, which is a minority owned consulting firm made up of healthcare industry experts that work with member organizations to start and grow their own supplier diversity programs. They also help organizations connect with their local communities and make a positive economic impact.

38. Describe any other actions concerning Vendor Diversity you think are important that are not covered by the preceding questions.

- Intalere's outreach efforts include sponsoring scholarships for the Tuck Business School at Dartmouth's program targeting Supplier Diversity professionals. This program includes a healthcare supply chain education piece and teaches minority business owners and professionals how to navigate within the healthcare industry.

- We also invite diverse suppliers in various meetings as appropriate such as our annual niche/new technology fair at our annual conference. This gives diverse suppliers we do not contract with the opportunity to showcase their products/services to contracting staff and key customers. Attendees provide their input regarding whether or not they believe the supplier is offering value and direct feedback is given to the suppliers.
- Our Supplier Diversity Program Manager is on the board of HSDA and Intalere was a founding member of this organization. Intalere is a member of this organization and sponsors their annual symposium.

ENVIRONMENTALLY PREFERRED PRODUCTS AND SERVICES

39. Have members of your GPO expressed a preference for environmentally-preferred products and services?
- A few have expressed interest.
40. Describe your GPO's approach in identifying and satisfying the desires of your various members for environmentally-preferred products and services. Provide examples of environmentally-preferred products and services within your current portfolio.
- Our Sourcing process incorporates environmentally preferred product questions into our Supplier Response Document. These questions were developed by a committee including all the major GPOs so that we could be consistent in the industry. Some examples of Intalere contracts that contain environmentally preferred products – cleaning chemicals, reprocessing, furniture contracts and energy contracts.
41. What challenges, if any, have you experienced in identifying or contracting for working a variety of environmentally-preferred products and services to your members? How have you responded to such challenges?
- We have challenges with obtaining the data and finding a way to use the data we do have in a meaningful way to our Members. We have found the best way to help our Members reach their sustainability goals is to help Members on an individual basis – for example, our Facilities Management Specialist might help a facility with the Energy needs or with chemicals of concern in furniture purchases. We are also investigating Suppliers who can help us with data management in this area.
42. Has your GPO designated someone to:
- Identify your GPO's environmentally preferred objectives;
 - The Strategic Programs Team
 - Explore environmentally preferred products and services; and/or
 - The Sourcing Team on a category basis
 - Develop initiatives to help educate your members about the value of using environmentally-preferred products and services?
 - Our Facilities Management Specialist's team has held education sessions on Energy Management Best Practices.
43. Please describe your organization's role in educating, advising, and supporting the adoption of Environmentally Preferred Purchasing among your members, including the availability of websites, catalogues, toolkits, or webinars?
- We refer Members to Practice Green Health for resources. <https://practicegreenhealth.org/>

CODE OF CONDUCT

44. Provide a copy of and an electronic link to your GPO's written code of business ethics and conduct. Describe any changes made to it from the previous HGPII reporting year.
- Copy included at the end of this questionnaire.
<http://www.intalere.com/Portals/4/Documents/Standards-of-Business-Ethics-and-Conduct.pdf?ver=2016-09-01-142351-937>.
 - No changes made in 2020.
45. Describe whether and in what manner the GPO distributes its written code of business ethics and conduct to all applicable employees, agents, contractors, clinical advisory committees, and others involved in group purchasing activity. How often is the code of conduct provided to employees? Do employees receive annual refresher training on the GPO's ethics and the code of conduct? Describe the content of the training and the method of delivery.
- The Intalere Conflict of Interest and Standards of Business Ethics and Conduct policies are provided to all newly hired employees and annually thereafter. In addition, they are included in the Intalere Employee Handbook and on the online internal website for all employees.
 - It is distributed annually to all board of directors.
 - It is not distributed to members of clinical advisory committees but discussed prior to any advisory committee meeting and is available on our website.
 - It is not distributed to all agents and contractors that participate in GPO activity, but is available on our website.
 - It is not distributed to vendors and others with whom we do business but is available on our website.
 - Every other year we provide refresher training to our sales generalists and clinical sales specialist personnel. The program provides specific instruction and review on code of conduct, business ethics, contracting policies and industry best practices. In addition, at least annually all employees are notified of the importance of compliance and ethics and reminded how to have concerns addressed. Information on how to report any issues is frequently provided and emphasized.
45. Describe the mechanism (e.g., a corporate review board, ombudsman, corporate compliance or ethics officer) for employees to report possible violations of the written code of business ethics and conduct to someone other than one's direct supervisor, if necessary.
- Employees have several options, in addition to their immediate supervisor, for reporting possible violations to the Standards of Business Ethics and Conduct policy. They may discuss their concerns with the next level of management, with a Human Resources representative, or with Intalere's Compliance Officer.
 - Intalere has also contracted with "The Network" to provide hotline services to our employees and business partners who wish to anonymously report violations. The hotline service is discussed annually, in person at employee meetings at the various Intalere locations. An article is featured at least annually in the Intalere employee newsletter. Employees have been provided with brochures on how to contact "The Network" and posters and brochures are posted on site. We also have information on our web site regarding the hotline and how business partners may report suspected violations.

COVID-19 Response

46. With the onset of the COVID-19 pandemic many healthcare providers experienced shortages of critical supplies and equipment due to disruptions in the supply chain. In response, how did your organization assist its members in assessing the quality and reliability of supplies? Specifically, what role did your organization play in vetting new and previously unknown supply chain sources, especially within the so-called Grey Market?

- Intalere assisted members in providing guidance and best practices on vetting new suppliers and navigating the Gray Market. Additionally, Intalere promoted *The Exchange*, a free service platform developed by our partner Resilinc, which was designed specifically in response to the pandemic for exchanging needed supplies between healthcare organizations across the nation.

47. Please describe your organization's role in advising and supporting federal and state policy makers in managing the healthcare supply chain during the pandemic, including cooperation with federal and state stockpiles?

- Throughout 2020 Intalere participated in a variety of supply chain coordination calls facilitated by the US Federal Government as part of the Private Sector Supply Chain Initiative. This initiative included coordination from HHS, CDC, FEMA, and FDA.

48. As a response to pandemic related challenges and supply chain disruptions, what technology services and IT products did your organization provide to members and their patients? What information and best practices services did you provide to the public?

- Intalere provided its members with a number of communications and resources, including:
 - A COVID-19 Resource Library featuring helpful links on our public website.
 - A weekly newsletter for members highlighting relevant resources and contracts.
 - Webinars presented by internal subject matter experts on various topics, including infection prevention best practices, supply chain resiliency, safe facility considerations, reopening best practices, and more.
 - Updates and information from Intalere's contracted-suppliers were published on Intalere's Member Resources website (customer-only portal).
 - Blog articles authored by various SMEs.
 - A COVID-19 contract portfolio highlighting partners with relevant pandemic supplies.
 - Resources tailored for specific non-acute markets segments, such as a reopening webinar series for Ambulatory Surgery Centers and a COVID-19 toolkit and resource library for Senior Living Communities.
- Additionally, Intalere's cross-functional internal Incident Command Group responded to member inquiries, providing information, and connecting them with alternate suppliers on contract.

REPORTING POTENTIAL ETHICAL VIOLATIONS

46. What process is used to protect the confidentiality of the reporting employee's identity and what safeguards are in place to mitigate the opportunities for retaliation?
- Employees have several options available to them if they suspect a violation to the Standards of Business Ethics and Conduct has occurred.
 - The employee may contact the Compliance Officer for Intalere in writing, by telephone, or in person to discuss the concern.
 - The employee may contact another member of senior management if they are uncomfortable discussing their issue with the Compliance Officer.
 - The employee may call the toll-free Compliance Hotline if they wish to remain anonymous when reporting their concern. The compliance hotline has been established for employees and business partners to anonymously report violations to the Standards of Business Ethics and Conduct. The hotline is answered live 24 hours a day, 365 days a year and is staffed by professionals trained to interview individuals reporting compliance violations. The employee does not need to give their name or telephone number and the caller will not be identified or recorded. The employee will need to call a second time using the identification number the hotline interviewer will provide in case additional information is needed to conduct a thorough investigation. A copy of the report will be forwarded to the Compliance Officer.
 - There will be no retaliation taken by the company against an employee for reporting a violation. However, there will be disciplinary action taken up to and including dismissal for willfully making false accusations.
 - Prevention: Of course, the best way to avoid violations is through prevention. If the employee is unsure whether a decision or course of action will result in a conflict of interest, they may complete a "Request for Determination of Possible Violation of Standards of Business Ethics and Conduct" form and submit it to the Compliance Officer. They will receive a written reply within three (3) business days. They may also call the Compliance Hotline if they prefer.
47. Describe how the GPO follows up on reports of suspected violations of the code of business ethics and conduct to determine if a violation has occurred and if so, who was responsible. Describe corrective and other actions taken in such circumstances.
- If the hotline receives a complaint, the Compliance Office is notified. The Compliance Officer is responsible to investigate, document, determine what has occurred and who may be responsible, and to resolve whether by corrective action or other action, each notification of a suspected violation. In doing so, the Compliance Officer uses reasonable judgment to question the appropriate parties on the facts. Once enough information has been acquired in order to make an informed decision, action is taken to provide proper resolution and closure for the reported incident or question. The Compliance Officer will report all complaints submitted by the hotline, the results of the related investigations and the subsequent actions taken to the Board of Directors. The process is documented and retained in the Compliance Log.
48. Describe the processes the GPO follows up on, to monitor on a continuing basis, adherence to the written code of business ethics and conduct, and compliance with applicable federal laws.
- Corporate activities are monitored by the Company Compliance Officer. As needed, external legal counsel is consulted.
 - In addition, and as appropriate, the Compliance Officer will consult with other individuals such as the CEO, CCO, COO, and SVP, HR.
 - Quarterly detailed reports and an annual summary are provided to the Board of Directors.

49. Are periodic reports on the GPO's ethics and compliance program made to the GPO's Board of Directors or to a committee of the Board? If so, please state how often and in general, what information is reported? Are periodic reports on the company's participation in HGPII made to the GPOs Board of Directors or to a committee of the Board? If so, please state how often and in general, what information is reported.
- Reports are made to the Board on a quarterly basis and a summary is provided annually. The reports provide details of the issues and resolutions to items, as well as other items and actions related to ethics and compliance. Items that are sensitive in nature or require immediate actions are brought to the Board as they occur.
 - An update is given after the Best Practices Forum as well as submissions of the (Public Accountability Questionnaire) PAQ each year and at other meetings if there is activity to report.
50. How many of your GPO employees attended the most recent Best Practices Forum? Include the name of the most senior executive who attended.
- The 2020 forum was conducted remotely and, while made available to a broader group of employees, Intalere did not track individual participation.
 - Stephen P. Schoch, Chief Financial Officer, was the most senior executive to attend.
51. List the name, title and contact information of the senior manager assigned responsibility to oversee the business ethics and conduct program. Provide the name, title and contact information for the individual(s) responsible for responding to this report.
- Stephen P. Schoch is the senior manager assigned to oversee the program and the individual responsible for responding to this report.
 - Stephen P. Schoch, Chief Financial Officer & Chief Compliance Officer
 - Email: steve.schoch@Intalere.com
 - Phone: 314-542-1922

INTALERE®

INTALERE STANDARDS OF BUSINESS ETHICS AND CONDUCT

Intalere has established Standards of Business Ethics and Conduct for Intalere and its employees. Business ethics involve being fully aware of what we are doing, including the potential consequences of our actions. It is the responsibility of every employee to uphold these standards and to ensure that their personal conduct does not conflict with or violate these standards.

Our Values

Integrity

We are honest and ethical, and we do what's right.

Passion

We deeply believe in our mission and vision, and we enthusiastically serve our customers.

Accountability

We accept responsibility for our actions and keep our commitments.

Innovation

We continually find new and improved ways of doing things.

Excellence

We do our best every day and always strive for superior quality.

EMPLOYEE'S RESPONSIBILITY

In accepting a position with Intalere, you have accepted the responsibility to do your very best every day, abide by the policies of the company and maintain the highest ethical standards. Intalere expects additional responsibilities which include but are not limited to:

- Be loyal to Intalere. Make choices on behalf of the company. Making ethical choices is a state of mind.
- Be law abiding, comply with all domestic and foreign laws, and comply with all legal standards that relate to our company and industry.
- Be clear, truthful and accurate in all communications with others including the information we provide relative to Intalere programs, services, supplier/distributor contracts and pricing.
- Do not disclose confidential information.
- Be responsible and reliable in carrying out all job responsibilities.
- Be respectful, cooperative, fair and consistent in all relationships and dealings.
- Be economical and prudent with business resources.
- Be sensitive to situations that could constitute or give the appearance of a violation of standards or the appearance of impropriety. Seek advice from supervision/management when the course of action is unknown or unclear.
- Refrain from giving, accepting or requesting gifts or favors that could improperly influence transactions with suppliers and distributors and their employees and agents.
- Report violations of these standards to a member of senior management.

All employees **share responsibility** for maintaining these standards and **are required** to contribute to a workplace environment that is conducive to maintaining the standards. Violation of the Standards of Business Ethics and Conduct of Intalere may result in disciplinary action up to and including possible termination.

INTALERE'S RESPONSIBILITY

- Fostering an environment conducive to the implementation and ongoing adherence and support of these Standards of Business Ethics and Conduct.
- Overseeing that all current and new employees have received, read and understand the importance of the Standards of Business Ethics and Conduct policy by securing employee signatures on the following: Intalere Standards of Business Ethics and Conduct, Acknowledgement Statement, and Disclosure and Certification forms.

- Demonstrating commitment via conduct and managing the business activities of employees in accordance with these standards.

PROPRIETARY AND CONFIDENTIAL INFORMATION

Most employees will likely come into contact with confidential information regarding pricing, contractual agreements, administrative fee information, negotiations, studies, membership lists, computer programs, shareholder information, competitor analysis, trade secrets, strategic plans, financial records and proposed or existing programs, products and services et al. The security and protection of proprietary and confidential information is an integral part of every employee's job, whether or not he/she works directly with such information.

Confidential information must not be discussed with or released to other people, either inside or outside of Intalere, unless such discussion or release is with those who have a need for such information in order to perform their assigned jobs on behalf of Intalere. Any requests for information from outside organizations such as customers, manufacturers, suppliers, distributors, individuals, the press, etc., should be reviewed carefully. If in doubt, consult your supervisor or a member of senior management. The release of confidential information to competitor organizations or other unauthorized individuals and companies may result in immediate dismissal.

BUSINESS PARTNER RELATIONS

Intalere has built its strong reputation in the market as a company that operates with integrity and high ethical standards. Intalere prospers to the degree that we serve our customers — Intalere's network of companies, affiliates and members — well, and maintain successful relationships with our business partners — manufacturers, suppliers, distributors and other participating vendors — that have contracts or submit formal bids to provide goods or services to our members.

- In these vital relationships, our dealings must be fair, honest, reasonable and consistent with established corporate policies, applicable laws and regulations, and sound business practices.
- Effective customer relations demand a total commitment to quality programs, competitive manufacturer/supplier/distributor agreements and high quality service.

- Intalere customers must believe that they are dealing with a company that has a clear understanding of their needs and a genuine interest in providing effective solutions to their problems.
- Our negotiation and/or bid process will therefore promote competitive pursuit of agreements/contracts for our members (to the maximum extent practicable).
- Selection of manufacturers, suppliers and distributors shall be on the basis of objective criteria such as membership need, quality, cost/price, schedule/delivery service, technical/educational support, and maintenance of adequate regional sources of supply.

The integrity of an agreement/contract between Intalere and a manufacturer, supplier or distributor must always be maintained. Anyone engaging in practices or utilizing procedures which conceal or facilitate illegal or improper payments or receipts, or which supports an inference of wrongdoing as described in the following sections, seriously jeopardizes Intalere's important business relationships and contractual arrangements with manufacturers, suppliers and distributors. Such actions may subject the employee, company and outside wrongdoers to civil and even criminal charges. Furthermore, such actions may subject the employee to disciplinary action up to and including dismissal.

INTALERE CORPORATE SOURCING PRINCIPLES

The primary responsibility of Intalere is to its healthcare provider members. Participation in Intalere by healthcare providers is generally voluntary and is driven by the cost reduction value that Intalere brings to each individual entity. To assure the confidence and support of its healthcare provider members along with the respect of the healthcare supplier community, Intalere conducts its business with the highest degree of ethics and integrity in its business practices. At the same time, Intalere must use all appropriate and legitimate business strategies, methods and tactics available to insure that it achieves the best cost reduction agreements possible for its members. Intalere is proud of the reputation and respect that it holds with both providers and suppliers in the discharge of its business. The following are the core principles of Intalere's sourcing activities. These Corporate Sourcing Principles of Intalere guide the organization in all its fundamental activities.

Intalere welcomes input from its members, trading partners and other appropriate industry sources to insure that it conducts its business in the most ethical and effective manner possible.

Cost Reduction Benefit: Intalere strives to reduce costs for its healthcare provider members. At the same time, Intalere is mindful and supportive of the need to get quality products to patients and works to provide healthcare providers and patients access to breakthrough technologies and choices among healthcare products.

Confidentiality: Intalere will respect and protect the confidentiality of all proprietary information it obtains from both suppliers and members.

Conflict of Interest: Intalere's board members, management and employees will ensure a competitive environment by avoiding any activities or circumstances that could create any actual or perceived conflict of interest. Intalere policy prohibits Intalere owning an equity stake in any contracted supplier*, and does not permit any contract administrative fees to be taken in advance. Board members, management and employees are expressly forbidden from providing or accepting gifts, favors or entertainment, other than of nominal value, designed to influence the individual in the performance of their duties. In addition, Intalere senior management is prohibited from owning any individual equity interest in any of Intalere's business partner companies, and must divest themselves of stock holdings in companies with which Intalere contracts, within six months of any contract award. These policies, designed

to prevent any actual or perceived conflicts of interest, are monitored and enforced by Intalere's compliance officer, its chief financial officer/corporate treasurer and secretary, who reports directly to the board in these matters.

**Representatives of Intalere's parent company currently manage a portion of Intalere's investment portfolio. These investment managers may, in their discretion and from time to time, choose to make non-material investments in healthcare companies with which Intalere does or may contract. The managers make all investment decisions without knowledge of Intalere's business relationships, and Intalere does not participate or provide input to the managers on their investment decisions.*

Choice: Intalere does everything it can to ensure choice and value for its healthcare provider members. Only in rare instances does Intalere contract on a sole-source basis (particularly for a clinical preference product), and only as a function of an open and competitive bidding process where Intalere's members would otherwise not realize the value represented by the arrangement. Clinical preference items will be sourced based on Intalere member needs.

Ethics and Conduct: To ensure that Intalere engages its suppliers and trading partners in a fair, impartial and ethical manner, Intalere has adopted and implemented standards of business ethics and conduct policies to which it holds its board members, management and employees accountable. Intalere supports, and is in full conformance with, the code of conduct of the Healthcare Supply Chain Association (HSCA).

Bundling: Intalere's code generally prohibits aggregating unrelated products and services from the same supplier. Aggregation may occur on a limited basis and will only occur when:

- a. Intalere determines that its members' interest in obtaining high-quality products and services at the lowest possible prices will be served by the use of such practices;
- b. it does not interfere with RFP competition or unreasonably foreclose competition;
- c. it does not unreasonably limit member choice or flexibility;
- d. it does not prevent innovative technology from reaching members;

e. it does not interfere with the participation of specialized suppliers [For example, Intalere reviews product categories (as defined by our client committees and leadership) as they are re-bid to ensure that GPO contracts do not aggregate equipment, products and services, or services in such a way as to exclude small suppliers from contract awards].

In such cases, Intalere will make a determination if it can negotiate such terms to allow these goals to be achieved.

- It is Intalere's desire to treat each unique sourcing product line/category as its own project. Intalere may, however, based on clinical direction, consider products that are closely related or work together and treat the sourcing opportunity as a system project versus a single product line in an effort to provide the best overall value for its members. (For example, IV Therapy that is considered a system project would include IV sets, solutions and pumps together, instead of having a separate sourcing project for each category.) Intalere carefully assesses all proposed multi-product proposals and multi-product packages for a group of functionally-related products that may be offered when consistent with the overriding objective to provide members with the most innovative, cost-effective products possible.
- Related products are generally grouped by procedure or process. Intalere's group purchasing categories are not defined by what the largest suppliers offer in their "product line." Generally, contracts are bid and awarded by category (not by supplier) even though this may result in Intalere entering into several separate contracts with large, diversified suppliers.
- Pharmaceutical contracts are bid and awarded by broad therapeutic category (e.g., branded pharmaceuticals, generics and fractionated blood products).
- With respect to physician preference products, Intalere does not permit any supplier to aggregate unrelated products on Intalere contract.
- Intalere allows a supplier to give additional rebates or discounts for purchases of unrelated products for that supplier if Intalere determined that such practices conform to relevant law and that they yield lower pricing for the members.
- Intalere does offer optional programs and tiered pricing to its customers, wherein customers may improve their pricing on a particular product or service by purchasing an increased volume or by purchasing together certain

other related products or services.

- All products or services offered in the Intalere portfolio are separately offered and no customer is required to purchase one product or service in order to have access to another product or service.
- Any and all purchases of additional products or related products to increase pricing flexibility is solely at the customer's discretion.

Supplier Diversity: Small, minority, women and veteran (veteran and service-disabled veteran) business enterprises, cornerstones of our economy and the communities in which they are based, will be promoted and supported to members through the Intalere Supplier Diversity Program.

Compliance: Intalere will adhere strictly to all appropriate laws and regulations relative to disclosure of administrative fees* or income to its healthcare provider members. Intalere will not require the payment of marketing fees, or any other type of fees, other than administrative fees, as a condition of sourcing for any supplier. Administrative fees shall be consistent for all awarded suppliers of comparable products in like circumstances.

**Administrative fees are those fees or payments made by a vendor to Intalere in exchange for its services as a GPO, and identified as administrative fees on the applicable Contract Data Sheet made available to Intalere members.*

Commitment: Intalere is generally a voluntary membership organization without levels of participation, compliance, fees or commitment requirements. The Intalere customer philosophy is to engage members to drive value through partnership and create a "customized" relationship that delivers value without the significant upfront costs, dues, required equity investments and commitments required by other GPO offerings.

Intalere has a unique approach within the group purchasing industry, which is, where possible, to offer our members a choice in contract suppliers. Our dual source philosophy allows our members to build their formularies with products and services that meet their needs. This philosophy insures our members' access to the right products which drives quality care within their organizations. This strategy is important to all of our customers, particularly in the non-acute space where we are solidified as the market leader.

However, we also recognize that many categories require aggregation as part of the strategy. This aggregation plus commitment, drives better pricing. Therefore, Intalere's sourcing approach does include a composition of committed portfolios covering products and categories with the med-surg, laboratory, pharmacy and diagnostic imaging areas that members interested in commitment strategies can access.

Also, in order to ensure adequate member access to alternative clinical preference products of their choosing, Intalere will prohibit minimum requirement commitments greater than 80 percent on all clinical preference contracts.

Technology: Intalere supports its members through constant review and research into new and emerging technologies that improve the quality of patient care or enhance the efficiency and quality of the delivery of care. Intalere will always reserve the right to contract with suppliers of new and unique technologies that provide enhanced patient care.

Member Autonomy: The selection of clinically oriented products and services shall always be at the ultimate discretion of Intalere's healthcare provider members. Intalere will impose no conditions on its members that would impede their independent review and adoption of new or beneficial technologies.

Preferred Portfolio Agreements: The use of Intalere Choice® preferred portfolio agreements has proven to provide exceptional cost-savings opportunities for Intalere members, as well as increased contract opportunities for many smaller manufacturers. In order to ensure an open and competitive environment for members and suppliers, Intalere commits to the following policies relative to its Intalere Choice preferred portfolio activities:

- Intalere will not issue any Intalere Choice preferred portfolio agreements for clinical preference medical device products.

Clinical Preference Products: Because of the importance of choice of clinical preference products in the delivery of quality patient care, Intalere maintains the following policies in sourcing for such products:

- All Intalere contracts for clinical preference products will be limited to three (3) years or less.

- Administrative fees for all Intalere contracts for clinical preference products will not exceed three (3) percent.

Intalere Corporate Sourcing Principles Adopted by the Intalere Board of Directors November 15, 2002, most recently revised September 8, 2012.

CONFLICT OF INTEREST

Every employee has a duty of loyalty to Intalere. An employee cannot have any business, financial, or other relationship with outside manufacturers, suppliers, distributors or competitors that might impair, or appear to impair, the independent judgment rendered on behalf of the company. Actions that may involve a conflict of interest must be avoided both in business and personal relationships and activities. Questions or concerns regarding potential conflict of interest situations should be discussed promptly with your supervisor or with the chief compliance officer as outlined in the "Intalere Conflict of Interest" policy.

Employees are primarily responsible to Intalere and therefore cannot engage in outside employment or activity that would conflict with Intalere's interests or reduce the efficiency of the employee in performing his/her duties at Intalere. This includes serving as a consultant, officer, or director of a manufacturer, supplier, distributor or other Intalere business partner. Employees are to notify their supervisor of any outside employment to avoid a conflict of interest.

ENTERTAINMENT, GIFTS AND FAVORS

An Intalere employee cannot place him/herself under obligation to others by providing or accepting gifts, favors or entertainment designed to influence the individual in the performance of his/her duties for Intalere. Employees must assure that any gifts, favors or entertainment that they accept from Intalere's business partners (manufacturers, suppliers and distributors) are handled in accordance with these standards.

Any expenditure for meals and entertainment in connection with business discussions must be authorized and documented for expense reimbursement.

Business meals, entertainment and promotional gift items of nominal value (does not exceed \$50 per instance or \$100 in any calendar year) may be accepted provided they are

not an inducement to favor a manufacturer, supplier or distributor doing or seeking to do business with Intalere. Any item, service or other thing of value that costs \$10 or less shall not be counted toward the \$100 annual limit per business partner. Please see your supervisor or member of senior management if you are unsure if the value of a gift is appropriate.

BUSINESS MEETING ATTENDANCE

Intalere employees are at times required to travel as part of their job function. It is Intalere's policy to support its own travel expenses and operate within established budgetary guidelines.

- There must be a clear business purpose with a pre-established agenda.
- The meeting should be scheduled in such a way as to be as efficient and productive as possible.
- The meeting should benefit Intalere's business and/or create value for Intalere's members.

Visits by Intalere employees to suppliers for the purpose of educating the supplier on Intalere's business practices and the needs of Intalere's members, even at the request of the supplier, must meet the criteria of value to Intalere and/or its members, and shall be at Intalere's expense. Guidelines concerning meals, gifts and entertainment as outlined above shall be followed.

Attendance at industry events which include representatives from multiple organizations are considered acceptable even if sponsored by a contracted supplier. As outlined above, attendance shall be judged on the basis of value to Intalere and/or its members, and such expenses shall be borne by Intalere. Individual activities at such events must follow the gift and entertainment guidelines previously outlined.

Honorariums are not acceptable under any circumstance.

STOCK OWNERSHIP AND INSIDE INFORMATION AND INVESTMENT DISCLOSURE

In no instance may Intalere employees use or share inside information, which is not otherwise available to the general public, for any manner of personal gain or for the benefit of anyone else, as might be realized through the stock trading of any manufacturer, supplier or distributor company.

In order to avoid potential conflicts of interest, or the

perception thereof, the following individuals shall not have any individual equity interest in the companies specified:

- Intalere senior management, sourcing vice presidents and exempt sourcing employees shall not own any individual equity interest in any of Intalere's business partner companies nor with any suppliers of healthcare products with which they have contracts or bids for contracts or in which it is reasonably likely that Intalere may contract within the foreseeable future.
- Intalere senior management, sourcing vice presidents and exempt sourcing employees are prohibited from involvement in any sourcing activities with companies in which they hold an individual equity interest. During the time they hold the interest, they must completely recuse themselves from any discussion and negotiations that could impact or be perceived to impact sourcing decisions or result in insider information being shared. Once documentation is received by the chief compliance officer that their equity interest has been disposed of or is no longer in the direct control of the employee, they may immediately resume sourcing activities with that company.

Definitions:

- Senior management shall mean all members of the senior leadership team.
- Sourcing employees shall mean sourcing vice presidents and exempt sourcing staff with responsibility for developing or negotiating agreements and contracts with Intalere's business partners.
- Business partners shall mean manufacturers, suppliers and distributors with whom Intalere has a contract or has received a contract proposal.
- Individual equity interest is defined as stocks, securities, options, warrants, debt instruments (including loans), or rights to acquire any of the foregoing, but excludes interests in mutual funds or other interests held in which all investment decisions are independently managed by a third party.
- Personal investments — These guidelines apply to the portfolio of personal investments that are directly controlled by the eligible Intalere employee and are to the benefit of that employee.
- Excluded investments — Investments that are not controlled directly by the eligible employee are not included in this disclosure policy. Examples of excluded

investments are mutual fund holdings, investments in a blind trust, a minimal individual equity interest in an Intalere trading partner held by the employee's spouse, and stock owned or options provided as compensation to an employee's spouse who is currently employed by an Intalere trading partner. With the exception of the mutual fund holdings, employees are required to disclose the other excluded investments noted above in their annual conflict of interest statement. Note: a "minimal individual equity interest" is defined as "less than 1 percent of the total outstanding equity."

Disclosure:

- All senior management, sourcing vice presidents, and exempt sourcing employees shall be required to annually disclose to Intalere all equity interests (excluding mutual funds) in companies with which Intalere currently has contracts or with which Intalere signs contracts in the future. The employee's entire investment portfolio need not be disclosed, just investment interests in companies with which Intalere has contracts.
- Each eligible employee will be required to complete and submit a Disclosure and Certification form to the human resources division in December of each year and within 30 days of the release of a bid or request for proposal to any such company.
- Senior management, sourcing vice presidents, and exempt sourcing employees will be expected to dispose of stock holdings which violate Intalere policy within six months of knowledge of the potential conflict. Until such divestiture, affected individuals shall be recused from any involvement in any sourcing activities involving the company in question.
- Intalere will exercise its best efforts to oversee that all such information will be kept strictly confidential, although the employee's immediate supervisor will be made aware of any contracts with which the employee must avoid involvement.

ANTITRUST LAWS

A wide range of transactions or practices is prohibited under antitrust laws that exist to promote competition and prevent price fixing. No agreement or understanding may be made with competitors to fix or control prices; to allocate products, markets or territories; to boycott certain customers or suppliers; or to refrain from or limit the

manufacturing, sale or production of any product or product line. Employees are also prohibited from taking any actions to illegally monopolize or attempt to monopolize any line of business or activity within the group purchasing industry.

Employees involved in professional and trade association activities where formal or informal communications with competitors may occur, must be especially alert to the requirements of the law. Arrange with the human resources division to consult with corporate legal counsel if there is any doubt as to the application of the antitrust laws.

POLITICAL CONTRIBUTIONS

Intalere encourages all employees to participate on an individual basis in political and civic activities of their choice. However, no Intalere funds or other assets are to be contributed to any political party, to the campaign of any person for political office or in opposition to such party.

COMPLIANCE OFFICER RESPONSIBILITIES

The compliance officer responsible for implementation, enforcement and control of the Standards of Business Ethics and Conduct for Intalere is the chief financial officer for Intalere, who reports directly to the Intalere board of directors in these matters.

The compliance officer is responsible for:

- Receiving a copy of all reports of potential/perceived violations, overseeing the investigation of each report, approving the corrective action, if any, to be taken to resolve a violation, if found to have occurred, and reporting the receipt and disposition of all reports of potential/perceived violations to the board on an annual basis.
- Corrective action may include implementing tighter financial controls, creating audit procedures and establishing more frequent management oversight. Corrective action against individuals may include disciplinary and/or legal action up to and including termination and prosecution depending on the circumstances and seriousness of the violation.
- Conducting ongoing compliance monitoring and auditing activities.
- Seeking advice from legal counsel, independent audit firm, industry professionals and law enforcement agencies as appropriate.

- Drafting responses to government inquiries for review by legal counsel and the chief executive officer of Intalere.
- Overseeing that each employee receives a copy of the Standards of Business Ethics and Conduct for Intalere policy upon hire and annually thereafter.
- Overseeing that each eligible employee signs and submits the Intalere Standards of Business Ethics and Conduct, Acknowledgement Statement, and Disclosure and Certification forms by December 31 of each year.
- Providing education and training programs and materials on an ongoing basis to oversee that employees are updated on legal developments, comprehend the importance of complying with the standards and the consequences for violations, and are aware of their avenues to report potential/perceived violations.
- Investigating reports of potential/perceived violations and implementing approved corrective action when appropriate.
- Reviewing investigation and auditors' findings and making recommendations for addressing.

COMPLIANCE HOTLINE [THE NETWORK: 877-888-0002]

A toll-free compliance hotline has been established for employees and business partners to anonymously report potential/perceived violations to the Standards of Business Ethics and Conduct for Intalere. The hotline is answered live 24 hours a day, 365 days a year and is staffed by professionals trained to interview individuals reporting potential compliance violations. You do not need to give your name or telephone number and your call will not be identified or recorded. You will need to call a second time using the identification number the hotline interviewer will provide in case additional information is needed to conduct an investigation. A copy of the report will be forwarded to the chief compliance officer.

PROCEDURE FOR REPORTING POTENTIAL/PERCEIVED VIOLATIONS

You have several options available to you if you suspect a violation to the Standards of Business Ethics and Conduct policy has occurred.

- You may contact the compliance officer for Intalere in writing, by telephone or in person to discuss your concern.
- You may contact another member of senior management

if you are uncomfortable discussing your issue with the compliance officer.

- You may call the compliance hotline if you wish to remain anonymous when reporting your concern. The hotline interviewer will submit a report of your call to the compliance officer.

The compliance officer will determine the appropriate course of action to take regarding an investigation. Each report will be logged, investigated and addressed. If the investigation indicates a violation has likely occurred, the compliance officer will determine the appropriate course of corrective action to take and will implement that course of action.

The Intalere board of directors will receive an annual list of reports filed, results of the subsequent investigation and any corrective action taken if the investigation revealed a violation has likely occurred.

If the compliance officer is implicated in the report, the president and CEO will handle the investigation.

Once you have reported a suspected violation, we will appreciate and expect your continued cooperation with the compliance officer or hotline interviewer, although the resolution of the situation may be confidential.

There will be no retaliation taken by the company against an employee for reporting a potential/perceived violation. However, there will be disciplinary action taken up to and including dismissal for willfully making a false report.

PREVENTION

Of course the best way to avoid potential violations is through prevention. If you are unsure whether a decision or course of action might result in a conflict of interest, please complete a Request for Determination of Possible Violation of Standards of Business Ethics and Conduct form (located on the HR portal on Intalere@Work) and submit it to the compliance officer. You will receive a written reply within five business days. You may also call the compliance hotline if you prefer. Be sure to follow up with the hotline representative to receive the answer to your question within five business days.
